

# Day 2 Stargazing

## #MyMendip

### Ideas to get you started

- Set up some blankets and pillows in the garden and get comfy
- Download a simple constellation guide and learn how to identify them.
- Use sticks and marshmallows to create your favourite constellation, it also doubles as a tasty treat!
- Download one of these stargazing apps:
  - Star Chart
  - Nasa
  - Night Sky Lite
  - Sky View Free
  - Sky Map
  - Star and Planet Finder
- Don't forget to learn the phases of the Moon. You can use Oreos or something else to re-create each phase and label it
