

Up-cycle something old into something new!

Ideas to get you started

- Get crafty with your rubbish . Instead of recycling or throwing something away turn it into something useful. Maybe a decoration or a gift for somebody
-
- Learn to darn a sock or sew a hole up. Challenge yourself, what's the worst that could happen!
-
- Customise instead of throwing away. Take something you don't like anymore and jazz it up into something more to your taste. Such as a bedside table or item of clothing
-
- Take a visit to your local zero waste shop or order online to see if you can make some sustainable swaps.
